Sizing - Fitting

- DAHU boots sizing is quite accurate lengthwise, below chart can help to select the right size for DAHU ski boots.

22,8	23,3	23,8	24,3	24,8	25,3	25,8	26,3	26,8	27,3	27,8	28,3	28,8	29,3	29,8	30,3
230-235		240-245		250-255		260-265		270-275		280-285		290-295		300-305	

- Length is only one of the many factors to consider when selecting a ski boot.
- DAHU boots fit the shape of the foot so well that you can confidently encourage consumers to try them on.
- With the introduction of the new Low Volume and Mid Volume fits, there is now a wider choice available, and we offer different sensations when wearing DAHU ski boots.
- One of the best, and most simple, way to measure foot length is simply to draw lines on a piece of paper. Length from heel drop to longest toe, and the maximum width at metatarsal.
